

GEOMATICAL CONTEST GUIDELINES

1. GEOMATICAL Contest is a competition where teams of students aged 16–18 compete in the fields of secondary school geography and mathematics.
2. All the necessary information about the competition, including the rules and the tasks, is to be found on the website of the organising school – Gymnázium Vincence Makovského se sportovními třídami Nové Město na Moravě (short: <https://tinyurl.com/geomatical19-20>, full: <https://www.gynome.cz/aktivity/aktuality/101-skola/ps/1333-geomatical-contest-2019-2020>).
3. Each school nominates teams of four to six students.
4. In each stage of the competition the teams solve a given set of tasks.
5. The tasks will be published on the organiser’s website on the 1st day of November, January, and March. Students solve the tasks and send them by email to the organiser. The address for this year is **geomatical@gynome.cz**.
6. Solutions must be written in English. For the mathematical part, each task must be written on a separate page, and must include appropriate reasoning (e.g. calculations) – a bare answer will not be awarded any points. The team name is to be included on all answer sheets. Properly solved problems will be awarded points, which will then be added to the team’s scoresheet.
7. The teams have to send in the solutions before the end of the month in which the tasks are published. Solutions submitted after the deadline will not be taken into consideration.
8. Team rankings will be published on the organiser’s website and updated after each stage. Competitors can track their results there.
9. The final stage of the competition will be held in Nové Město na Moravě, Czech Republic on 27–29 May 2020. There will be special rules for the final stage.
10. Highest scoring team overall claims the title and wins the trophy.
